

UX Design Storyboard

Scenario: Big - Picture - users uses the app to order food or reserve table .

user is at office and worried
to book table for meeting.
or he is hungry -

user is using the app
for booking a table -

user is using the app to
order food from high-end
restaurant -

user is relieved because
the table is reserved successfully

user receiving food from
delivery man he ordered.

users & his guest both happy
with the meeting experience. and
user having his meal -
