Affinity Diagram

Usability study of Lo-fi Prototype

Date & Time

Confusing selection date & time.	Time is fixed!
Time selection this format is nice.	Time selection not working in

Cart

No Option for removing Item.	How can I order multiple similar items?	What if I dont want this item
A way to cancel items	Who to add more items?	

Table Selection

How do I know the table I'm selecting is available.	Feature to add No. of guests.
Table availability unknown.	Not showing the table is available or not.
How do I add No. of guests?	Letting user go further without date & time
	is table already reserveed?

Navigation

I have to go back to do new task.	Frustration due to go back again.
Its boring to go back again!	Oh so go back again!
I have to go back to the service section	

Favourites

A feature of favourites would be great	
a Way to add items to my favourite	I want to save my items for quick order.

Menu

Non clickable items	Non scrollable items
Search bar not working.	I used to search Food directly.
I cant search.	

Confirmation page

I liked that	Oh its giving confirmations !
